

What's New? Now you can work smarter, think creatively and save time with the new and improved features of MindManager 7.

KEY FEATURES	BENEFITS	PRO 7	LITE 7
Microsoft Fluent User Interface	Intuitive interface simplifies creating new maps and access to advanced capabilities.	★	★
Saved Queries	Allows saving queries created in Power Filter/Select/Bookmark dialogs. Once query criteria are saved, they can later be applied to the same map or saved with a template for use in a map that uses that template.	★	
Saved Views	Sets up specific view of any maps and saves it for future use.	★	
Topic Styles	Easily create, format and save custom topic styles to make your maps more compelling.	★	
Topic Sorting	Sorts Topics in alphanumeric order, alphabet only, on task completion percentage or task priority.	★	
Microsoft Visio Export	Easily converts maps into process diagrams by seamlessly exporting to Microsoft Visio.	★	
Microsoft Excel Linker	Display and edit spreadsheets within maps.	★	
Power Filter	Filter Topics to show only desired topics and create a dashboard that shows only relevant information.	★	
Power Select	Select Topics for editing or modification using a combination of rules such as Map Markers, Task and Review Information and Other Properties.	★	
Custom Properties	Add a custom set of fields to a Topic and define their properties to create a reusable data set of information.	★	
Bookmark	Quickly move from one Topic to another topic using Bookmarks for easy search and retrieval.	★	
Review Mode	When sharing maps, initiate Review Mode to see exactly what additions and deletions were made.	★	
Topic Alerts	Synchronizes with Microsoft Outlook Calendar to be reminded when a Topic action is required.	★	
Text Marker	Add custom text markers to Topics to further describe topic relevance.	★	
Timer	Keep meetings and presentations on track.	★	
Microsoft PowerPoint Export	Create presentations using maps and export to PowerPoint.	★	
Charts and Spreadsheets	Readily enter and display data in spreadsheets or charts.	★	
Filter	Show or hide certain Topics in the map.	★	★
Microsoft Internet Explorer Import	Send hyperlinks from Microsoft Internet Explorer to Topics in MindManager.	★	★
Insert Attachments	Attach multiple files to a Topic for easy file management and distribution.	★	★
Insert Images	Insert an image from a file or from the MindManager library.	★	★
Summary Boundaries	Group related topics using a bracket boundary.	★	★
Relationship Arrows	Insert a relationship between two Topics in the map.	★	★
Topic Numbering	Keep track of Topics and Subtopics with numbering. Add, delete and move Topics while preserving the number format.	★	★
Insert Callouts	Insert a callout to any Topic or relationship in the map.	★	★
Balance Map	Automatically distribute Topics to balance a map.	★	★
Spell Check	Quickly identify and correct misspelled words using Spelling and AutoCorrect options.	★	★
Paste Special	Insert the content of the clipboard as a bitmap.	★	★
Organization Chart Layout	Show team structures and visualize departments.	★	★
Outline View	Easily view and edit maps in outline format. Text and image changes made in Outline View are immediately updated in Map View.	★	★
Viewing	Provides the ability to easily drag a map around with more control.	★	★
